"IT IS A HOME WHEN IT IS PLANTED"

1944
WHOLESALE PRICE LIST
VICTORY ISSUE
GRIFFING NURSERIES
BEAUMONT, TEXAS

TO OUR FRIENDS OF THE TRADE

PERSONAL MESSAGE TO OUR FRIENDS OF THE TRADE:

We are sending to you this 1944 Wholesale Price List for the Current Season, after having been somewhat delayed in getting it printed and ready for distribution. We have had somewhat the same difficulty in making prices again this year, due to the increasing cost of labor and supplies; however, we have tried to minimize these and keep the prices for our stock well in line. Some items show a slight increase, necessitated by increased cost of labor for handling.

THIS PRICE LIST contains a listing on the choice selections of Nursery Stock (Trees, Shrubs, Palms, Deciduous Flowering Trees and Shrubs and Vines) which we have available for our customers this year. It represents a very nice selection of choice materials and Specimen Stock for the Better Landscape Planting of the Southwest.

We do have a limited supply of some varieties not listed in this Price List, and would be glad to answer special inquiries of your requirements.

For years we have practiced the Grading of Trees and Shrubs by the **Standardized System of grading of the American Association of Nurserymen**, and we continue this practice as we think it is the only "Fair Way" of grading Nursery stock, and giving all of our Customers a square deal. This Price List covers both XX Standard Quality, and XXX Extra Heavy Quality Trees and Shrubs.

Alphabetical Listing has been used in this Price List, for the convenience of finding varieties offered. It is as simple as A. B. C. as each variety is listed in this manner by **Common names**.

We hope this "Victory Issue" Price List will be the last one we publish under war conditions, and another Season we will have more normal conditions under which we can serve our customers.

You are always **WELCOME** at **GRIFFING'S**—Visit our Nurseries and let us take care of your requirements with Good Quality Nursery Stock.

W. C. GRIFFING

TERMS OF BUSINESS

PRICE LIST FOR TRADE ONLY

This Catalog is intended for members of the Trade (Nurserymen, Landscape men, Dealers, Florists) who buy for resale plant materials. Should it fall into the hands of a Retail customer, it will be appreciated if it is returned directly to us.

TERMS AND DISCOUNTS: Cash in advance, unless satisfactory arrangement is made before shipment. Five percent (5%) will be allowed for Cash if remittance accompanies order. Two percent (2%) discount will be allowed for open accounts if paid within 10 days from date of delivery. Thirty (30) days net on List prices. Six percent (6%) interest will be added on overdue accounts, and subject to "Sight Draft".

PACKING: Where stock is loaded in car or truck, without tops wrapped, no charge for packing is made. Where L. C. L. or Express shipments require baling, boxing or crating, we make a charge for material and labor at cost.

SPECIMEN NURSERY STOCK: For Specimen Stock above XX and XXX Quality, selected or marked in the Nurseries, will be priced according to its value.

RESERVE ORDERS: Reserve orders are accepted upon payment of 25% advance, and upon the condition that they shall be void, should injury befall the stock, or error in count before shipment, or other causes beyond our control.

GUARANTEE: We guarantee our Stock to be well grown, true to name, properly packed and shipped according to instructions. In no case shall our liability be more than the original invoice value. We cannot guarantee plants to live or grow after they leave our hands.

CLAIMS: Complaints properly presented will be given special attention. Any claims must be made upon receipt of shipment, or within five (5) days. Be sure to have exceptions for damages noted on Transportation receipt at time of delivery.

SHIPPING POINT: All prices are f. o. b. our Nurseries, and Shippers travel at the risk and expense of the Purchaser. We load trucks and Carloads at our Nurseries. Carload shipments billed from Mt. Evergreen, or Gilburg, Texas siding, adjoining our fields. Express and Less Carloads shipped from Beaumont, Texas.

TRANSPORTATION INFORMATION

L. C. L. or MOTOR FREIGHT takes fourth Class, whether packed in Bales, Boxes or Crates to any point in the Southwest.

FREIGHT RATES LOWERED: There is now a New B&B Carload Freight Classification effective in all States included in the Southwestern Shipping Areas (including all the States of Texas, Arkansas, Louisiana and New Mexico; and portions of Mississippi, Alabama, Missouri and Tennessee) and possibly points beyond these limitations where the new freight rates are now in effect for this B&B Classification.

B&B CARLOAD RATES in the above Territory applies to 18,000 lb. Minimum Carloads which takes Column No. 25; and on 30,000 lb. minimum Carloads, takes Column No. 20 rate (20 per cent of First Class).

EXAMPLES OF LOW CARLOAD RATES effective to various Cities as follows: (Column No. 20 or 30,000-lb. Minimum Carload quoted). From our Shipping Point to:

Amarillo, Texas	44c	Laredo, Texas	36c
Albuquerque, N. M.	53c	Little Rock, Arkansas ..	35c
Baton Rouge, La.	24c	Memphis, Tennessee	39c
Corpus Christi, Texas ...	39c	Monroe, Louisiana	28c
Dallas, Texas	29c	Natches, Mississippi	28c
El Paso, Texas	53c	New Orleans, Louisiana ..	24c
Enid, Okla.	43c	Oklahoma City, Okla.	39c
Fort Worth, Texas	30c	San Antonio, Texas	29c
Galveston, Texas	16c	Shreveport, Louisiana	25c
Harlingen, Texas	36c	Tyler, Texas	24c
Houston, Texas	17c	Waco, Texas	27c
Jonesboro, Arkansas	40c	Vicksburg, Mississippi	31c

For other points in this territory, ask your Local Freight Agent the Rates from Mt. Evergreen, Texas, to your City; or write us direct for it.

ASSOCIATION MEMBERSHIP

To further the interest of the Nursery and Landscape Development and keep posted on affairs of interest to the Trade, we maintain membership in the following Trade Associations:

American Association of Nurserymen, Landscape Nurserymen's Association of the American Association of Nurserymen, Beaumont Florists and Nurserymen's Club, Beaumont Chamber of Commerce, Louisiana State Horticultural Association, Inc., Texas Association of Nurserymen, Texas State Florists' Association.

6 in. Pots	20 in.	1.10	1.60

AZALEA

With their Evergreen foliage, and Gorgeous Blooms in the early Spring Season, no planting is considered complete without them.

All our Azaleas are sturdy, field-grown, heavy branched, measured by spread, and transplant with excellent results. Try them!

All Azaleas require an Acid Soil, hence Leaf-Mold or Peat Moss for Mulching the roots should be added over the surface of the Plant Beds. Lime and Alkali conditions of soil require Special preparation with new Acid soil.

There are no more beautiful Flowering shrubs than the INDICA-TYPE of Azaleas for the "Gulf-Coast".

NO GREATER MASS OF COLOR THAN WHERE AZALEAS ARE USED

BRICK-DUST

A. indica
Low growing compact type with light Orange-Red flowers. Late flowering Variety.

Class	Min.	Size	XX	XXX
B&B	15 in.	Spr.	\$1.40	\$1.90

NB—at 25% off B&B Prices!

COTONEASTER

Semi-upright habit of growth, medium dull gray-green leaves, white underneath, dull red berries.		C. franchet	
Class	Min. Size	XX	XXX
B&B	3 ft. Sprd.\$1.30	\$1.80
B&B	4 ft. Sprd.1.80	2.50

CRAPE MYRTLE

Lagerstroemia indica

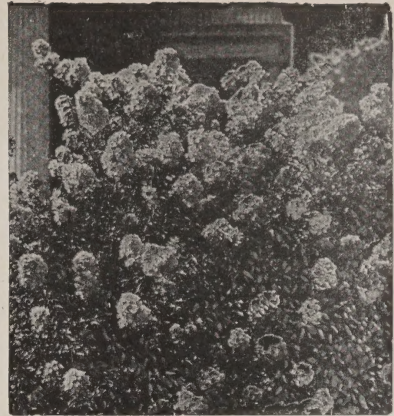

The favorite Flowering Shrub of the South. A hardy and Heavy bloomer; it paints the Landscape in the Summer months with its brilliant blossoms in tones of Crimson Red, Pink, Lavender and White. Frequently termed the "Lilac of the South". Beautiful display of color unrivaled the first Summer. The most generous usage and the demand of recent years indicates its great popularity.

PRUNE EVERY WINTER: For best results Crape Myrtles should be cut back to One Foot of the ground when planted. By using B&B in big sizes you get better root systems. Then every year thereafter, prune them back to within two to four inches where they were the year before. In this way you get much larger flowers, thick branches, and dense foliage.

We grow most of ours in Balling Soil—it pays to Ball them. Write on order if Single Stem, or if Bushy Plants are wanted.

DWARF BLUE

Low spreading, lavender-blue flowers in loose panicles which almost cover the plant.		L. i. corrulata nana	
Class	Min. Height	XX	XXX
B&B	4 ft.\$0.75	\$1.00
B&B	5 ft.1.00	1.50
B&B	6 ft.1.50	2.25

Griffing's Watermelon Red Crape Myrtle

Interplanted with evergreens, beautiful effects are obtained. Massed in groups of any size, a display of color unrivaled is had the first summer. The most generous usage and the demand of recent years indicates ITS GREAT POPULARITY.

IMPERIAL PINK

The light Pastel shade of this variety is excellent in many locations in the Landscape.

L. i. rosea

LAVENDER

The flower heads are large size of clear, bright Orchid-lavender—not the common dingy purple.

L. i. lavendula

MAGENTA

A very deep red of outstanding merit. Very rich color.

L. i. magenta

WATERMELON RED (Griffing's Type) L. i. rubra

The Watermelon Red or Cerise color so much admired, Watermelon Red Crape Myrtle has flower heads exceptionally Large and fluffy, the color rich, clear and bright. No shrub makes such a gorgeous display in a planting as this. Our type is recognized as being the Best type on the market.

B&B	5 ft.	1.60	2.10
B&B	6 ft.	2.10	3.00
B&B	8 ft.	3.40	4.80

NB—at 25% off B&B Prices!

ELAEAGNUS

No group of Broadleaf Evergreens have grown more in favor during the past few years than the Evergreen *Elaeagnus*. A most versatile Shrub, for foundation plantings, groups, borders or hedges. To our knowledge no other Shrub grows better than *Elaeagnus* in Shady Locations, as well as in Full Sun. Small white flowers, followed by small transparent Red Edible Fruits.

NOTE—All *Elaeagnus* Cutting Grown.**BROADLEAF***E. pungens macrophylla*

Leaves are large and pointed, upright grower, fast growing type.

FRUITLAND*E. pungens fruitlandi*

Very similar to Broadleaf, only it has more open, weeping growth.

ROSEDALE*E. Griffing's Hort. Var.*

A new sport. Small leaves, upright growth, many small branches, making compact growth.

SIMON*E. pungens simoni*

Small dark green leaves and Vase shape growth. Preferred by some for background planting or a tall narrow hedge.

Class	Min. Height	XX	XXX
B&B	2 ft.	\$0.80	\$1.00
B&B	2½ ft.	1.00	1.40
B&B	3 ft.	1.40	1.90
B&B	4 ft.	2.20	2.70
B&B	5 ft.	2.90	3.90

DWARF THORNY*E. pungens nana*

Semi-spreading compact habit. This variety is exceptionally good when planted under Windows where it can be constantly sheared, making a wide Spreading Evergreen growth.

Class	Min. Size	XX	XXX
B&B	3 ft. Sprd.	\$1.40	\$1.90
B&B	4 ft. Sprd.	1.90	2.50

ELAEAGNUS USEFUL FOR HEDGES:

Most hedge materials fail to grow in Shade, yet often hedges are required under Shade trees, as well as in the Open Sun. Most satisfactory for this purpose, we recommend the *Elaeagnus*.

**GRIFFING'S COMPACT***E. Griffing's Hort. Var.*

New and unusual type, a sport of the Fruitland discovered by us in 1934. Preferred to all other varieties of *Elaeagnus* by many Customers and Landscape men because of its close Compact, attractive growth. Semi-spreading compact habit, leaves of medium size and quantities of small branches make it very attractive and good for clipped Hedges or Specimens.

FIRETHORN—Pyracantha

Sometimes called "Crataegus" and "Evergreen Hawthorn". A family of plants of the greatest beauty in masses against foundations, along borders, etc.; graceful branches, Brilliant Winter berries.

The Berries on the FIRETHORN cling till Spring when attractive White Flowers take their place. Blooming at the same time as the Spirea, (Bridal-wreath) and most attractive, so that the plant has always some beauty in addition to its Green foliage. The large sizes require large balls and severe pruning for successful transplanting from our Black Balling soil.

ALL FIRETHORNS CUTTING GROWN:

ATLANTOIDES *P. atlantoides*
Semi-upright growing type, with clusters small scarlet berries.

DUVAL *P. duvaldi*
Semi-upright habit of growth, large red berries in mid-Winter.

FORMOSA *P. formosana*
Brilliant Red Berries in Fall. Upright habit of growth.

GLORIOSA *P. gloriosa*
Orange-Red Berries in large clusters. Ripens in Fall and Winter.

LALAND *P.alandi*
Upright grower. Orange colored berries in early Fall.

YUNNAN *P. yunnanensis*
Small red berries. Low natural spreading habit of growth.

Pfizer Junipers

PFITZER JUNIPER**J. chi. pfitzeriana**

The most handsome and popular of the Spreading Junipers. Naturally low, flat spreading form, broad and picturesque, showing unusual grace and charm, with fern-like branches, lying close to the ground. Its foliage is beautiful and feathery, bright green with blue-gray tinge. Excellent in all kinds of soils and weather conditions. Its flowing lines are especially valuable in all plantings. The most used of all Spreading Junipers. Withstands the soot and dust of Cities.

OAKS ARE EVER-LASTING

The Shade Tree of the South, nothing can compare to the MAJESTY of the OAKS—because of their LONG-EVITY, everlasting beauty and RAPID GROWTH, the Oaks are now preferred to all other Shade trees.

PLANT EVERGREEN LIVE OAKS

OAKS—Quercus

Nursery grown Live Oak Trees Live and thrive under all conditions when the Trees have been transplanted and root-pruned and properly Balled and Burlapped from the right kind of soil and pruned properly as they are dug for shipment.

For the best results in planting our Live Oak Trees, we urge you to let us use our Best Judgment in Pruning the tops when we dig your orders for shipment. We recommend stripping and thinning out all the small limbs, the size of a pencil or smaller.

Fast Growing Evergreen Spanish Live Oak

Experimental reports have been made by Experiment Stations after several years of study on suitability of soil for growing Live Oak trees. The tests show that they will grow on any kind of soil equally as well as on another, whereas, deciduous Oaks can only be grown on sour soil. Tests have also been made that Spanish Live Oaks ARE NOT susceptible to Texas Cotton Root Rot.

Live Oaks are rapidly becoming the most popular Shade Tree in the South, because they are Evergreen, and make such a Shapely tree for any purpose they may be used. The Spanish type of Live Oaks are the Fastest growing variety.

We have the complete stock from Acorns gathered in Florida from the choicest isolated groves in existence, so there is not a chance of hybridizing. This true type of FAST-GROWING OAKS is designed to revise the idea that Live Oaks are a slow growing tree, much different from the ordinary native Live Oak tree.

Specimen Live Oaks Enroute to Planting.

There is nothing more beautiful than the true "SPANISH" LIVE OAK. This type has thick dark green, oblong, pointed leaves that glisten in the sunlight, the under-side being a grayish-green color. Always clean, rich foliage. Very straight bodies. From young seedlings we trim to single stem in center, not allowing forks. In years to come, forked trees may split open and ruin the tree.

PRICES FOR THE SPANISH LIVE OAK:

Class	Min.	Height	XX	XXX

THE SATSUMA ORANGE**ORANGES—Citrus**

For the black, waxy soils and stiff clay or flatwood lands of Texas and Louisiana. Citrus Trees should be low branched and dirt banked among limbs during Winter months. Our low branched Trees are sold according to caliper, measured just below the branches, not by height or age.

All Citrus budded on Citrus Trifoliata Root Stock.

ADVISE BANKING

We advocate the use of **low branched trees**, which are better able to **withstand cold** than those trained up on one slender stem, and in addition we have found that **banking dirt** in a mound high up around the tree 18 or 20 inches will **protect the body** of the tree **from freezing**, and at the worst, when such precaution is taken, only the smaller branches can be lost, and the next crop materially reduced.

SATSUMA ORANGE**Citrus oonshiu**

This "Kid Glove" type is the early market Orange for the Coast Sections. Hardest Orange known. Begins bearing the second year. Fruit is medium size, flattened, deep orange color, fine grained, juicy, sweet and delicious. Seedless and thornless.

Class	Min. Height	XX	XXX

PALMS FOR TROPICAL BEAUTY

Nothing makes our Southern towns more INVITINGLY TROPICAL, especially in the eyes of our NORTHERN VISITORS, than the Palms, at home in OUR MILD CLIMATE. Lofty palms lining an avenue suggest stability and dignity. A careless grouping of palms with other evergreens makes for an EFFECT OF LUXURIANCE that NOTHING ELSE can create.

By selecting Hardy varieties, they can be planted a 100 miles inland from the Gulf. They should be planted extensively, as Northern Visitors look for the distinctive tropical effect of Palms in our South-land landscape.

BLACKBURN

Sabal Blackburniana

Fan-shaped leaves; hardiest of all Palms, can stand almost zero temperature without injury.

Class	Approx.	Ht.	Min.	Caliper	XX	XXX
B&B	2 ft.	2 in.	Clpr.	\$ 1.10	\$ 1.60

Sabal Palm—Hardest Variety

CANARY DATE PALM

Phoenix canariensis

This variety is the noblest of all the Phoenix family, being one of the most majestic Palms in cultivation. Its long, graceful, swaying leaves often attain a length of from 10 to 15 feet.

Class	Min.	Height	XX	XXX
B&B	2 ft.	3 in.	Clpr.\$1.80 \$2.50
B&B	3 ft.	4 in.	Clpr.2.50 3.50

Canary Date Palms in Parking.

LATANIA PALM

L. chi. livistona

Fan-leaf variety, rich light green. Good for Tubs for inside use.

Class	Min.	Height	XX	XXX
B&B	15 in.	4-6 leaves	\$1.10 \$1.50
B&B	20 in.	6-10 leaves	1.50 2.00

Palms are measured and graded by the THICKNESS OR DIAMETER OF THE TRUNK where it protrudes from the ground. From 40 to 60 per cent of the leaves are cut when dug. After new growth starts, fertilize liberally with stable manure and water freely and your Palms will give pleasing results.

Our Palms grow very stocky in the heavy black land, having strongly developed leaves and large, thick, pronounced trunks. More leaves according to caliper than on the palms grown in thick rows.

Beautiful Hardy Pindo Palm

PINDO PALMS

Cocos australis

Cocoanut Palm growth. Leaves similar to Date Palm. Its long drooping leaves blue-green color are very attractive. Very hardy, will stand the ordinary cold weather inland 100 miles from the Gulf. Bears edible fruit in early Summer.

Class	Min.	Height	XX	XXX
B&B	2 ft.	4 in.	Clpr.\$ 1.30 \$ 2.00

PRIVET—*Ligustrum*

This is a large family with various Shaped leaves, branches and color, etc. Largely used throughout the South. All varieties have masses of white flowers followed with black berries.

Acres of Griffing's Waxleaf Privets

BLACKLEAF

L. lucidum nigrifolium

Distinct Black-green foliage, compact growth. Most hardy of the *Ligustrum* group; very thick and glossy shrub.

CRINKLYLEAF

L. lucidum recurvifolium

A descriptive name from its twisted or crinkly leaves. Its long upright arching branches with dark green foliage makes it very attractive; much harder than most of the *lucidum* types.

Crinklyleaf Privet

WAXLEAF, GRIFFING'S

L. lucidum compactum

This is the Best bushy compact Evergreen shrub along the Gulf Coast. We have continued propagating from Cuttings this variety from the original plants. Its low compact growing type is decidedly different from a lot of Waxleaf.

Class	Min. Height	XX	XXX
B&B	18 in.	\$0.60	\$0.75
B&B	2 ft.	.75	1.00
B&B	2½ ft.	1.00	1.20
B&B	3 ft.	1.30	1.70
B&B	4 ft.	1.80	2.30
B&B	5 ft.	2.50	3.50
B&B	6 ft.	3.90	5.50

SPECIMENS 7 ft. up \$8.00 and up.

GRACEFUL

L. lucidum gracilis

Branches upright gracefully recurved growth, dark green foliage.

PYRAMID

L. lucidum pyramidalis

Pyramid form, leaves growing upward on the stem. Tall, narrow broadleaved Evergreen.

UPRIGHT

L. lucidum erecta

All branches grow in upright position, otherwise resembling the Waxleaf and often called "Upright Waxleaf".

YELLOWLEAF

L. jap. aureafolium

A tall grower with large yellow leaves.

Class	Min. Height	XX	XXX
B&B	4 ft.	\$0.90	\$1.40
B&B	5 ft.	1.40	2.00
B&B	6 ft.	2.00	3.00
B&B	7 ft.	3.00	4.00

CHINESE PRIVET (Amur River South)

L. sinensis

Small light green leaves, stands shearing into any shape or form. Used for Hedges. However we do not recommend its use as there are other better shrubs such as Yaupon, Elaeagnus, Bamboo, Waxleaf *Ligustrum*, etc.

Class	Min. Height	XX	XXX
B&B	2 ft.	\$0.20	\$0.30
B&B	3 ft.	.30	.40
B&B	4 ft.	.40	.60
B&B	5 ft.	.75	1.00

NB—at 25% off B&B prices!

Griffing's Waxleaf Privet

Pittosporum

QUINCE

FLOWERING

Cydonia japonica

Red and Orange. Upright growth, cutting grown stock.

Class	Min. Height	XX	XXX
B&B	2 ft.	\$0.75	\$1.00
B&B	2½ ft.	1.00	1.40
B&B	3 ft.	1.50	2.00

REDBUD

Cercis canadensis

Umbrella-shaped top. The Heart-shaped leaves appear after the mass of reddish purple flowers in the Early Spring.

Class	Min. Height	XX	XXX
B&B	5 ft.	\$1.20	\$1.60
B&B	6 ft.	1.60	2.80
B&B	8 ft.	2.50	4.00

SPECIMENS 5 in. Clpr. up at \$15.00 up.

ROSES

We have two varieties to take the place of Ever-blooming Flowering Shrubs to give bright flowers throughout the growing Season, distributed in group plantings, and for hedges or low growing borders.

AZALEA ROSE

Flower clusters much larger than the usual Baby roses, on good strong stems, growing about two feet high. A free and vigorous grower and abundant bloomer. Color a bright Rose-Pink. A group resembles an Azalea planting.

LOUIS PHILIPPE ROSE

The foliage and bush is a very strong bright green. The bush is a very strong upright grower of bushy habit and with bright red flowers, hanging in clusters over the bush at all Seasons of the year, it is one of the best flowering long-life shrubs that can be planted.

Class		XXX
B&B	Strong 2 Yr., each	\$1.00
B&B	Extra Strong 3 Yr., each	1.50

SENISA**SILVERLEAF****Leucophyllum texanum**

Small oval leaves of ash-gray or silver color. Bears profusion of orchid flowers.

Class	Min. Height	XX	XXX
B&B	2 ft.	\$1.50	\$2.00
B&B	3 ft.	2.25	3.50

SKYFLOWER**Duranta plumeri**

Green foliage; flowers in clusters of lilac color followed by yellow berries in clusters.

Class	Min. Height	XX	XXX
B&B	3 ft.	\$1.30	\$1.75
B&B	4 ft.	1.75	2.50

SOTOL**SAWTOOTH****Dasylium serratifolium**

Long tapering leaves gracefully recurved with sawtooth edges.

Class	Min. Size	XX	XXX
B&B	2 ft. Sprd.	\$1.10	\$1.50
B&B	3 ft. Sprd.	1.50	2.00

SPIREA**THUNBERGI****Spirea thunbergi**

Semi-spreading habit; arching branches. Delicate tiny fresh green leaves. In the Spring, small button-like white flowers appear, followed by new lacy green foliage.

Class	Min. Height	XX	XXX
B&B	3 ft.	\$1.10	\$1.60
B&B	4 ft.	1.60	2.00

VAN HOUTTEI (Bridal Wreath). Spirea Van houttei

Arching branches, masses of white flowers.

Class	Min. Height	XX	XXX
B&B	3 ft.	\$0.60	\$0.80
B&B	4 ft.	.80	1.00

NB—at 25% off B&B prices!

SYCAMORE**(Plane Tree)****Platanus orientalis**

A tall, wide spreading tree. Leaves are very large, usually five lobed.

Class	Min. Height	XX	XXX
B&B	8 ft.	\$1.50	\$2.00
B&B	10 ft.	2.00	3.00
B&B	12 ft.	3.00	4.00
B&B	14 ft.	4.00	5.50

NB—at 25% off B&B prices!

TALLOW**CHINESE****Sapium sebiferum**

Deciduous Tree. A dense compact growth, upright form with rounded top, medium size heart-shape leaf, of bright green, changing to Red Orange and Yellow in Fall. The berries or seeds are covered with a White tallow substance, which the Chinese People use for candle. Thrives best in heavy black land.

Class	Min. Size	XX	XXX
B&B	8 ft. 1 1/2 in. Clpr.	\$ 2.00	\$2.80
B&B	10 ft. 2 in. Clpr.	2.80	4.00
B&B	12 ft. 2 1/2 in. Clpr.	4.00	5.50
B&B	14 ft. 3 in. Clpr.	5.50	7.50

SPECIMENS 4 in. Clpr. up \$10.00 up.

THRYALLIS**Yellow Plumbago**

Low compact growth, rich green leaf, clusters of yellow flowers in the late Fall season.

Class	Min. Height	XX	XXX
B&B	2 ft.	\$0.95	\$1.25
B&B	2 1/2 ft.	1.25	1.75

VIBURNUM**SANDANKWA****Viburnum suspensum**

Compact, bushy habit of growth. A handsome shrub with ovalish leaves, toothed toward the tin. Flowers are dense clusters or panicles, of pinkish color, followed by Red Berries. A fine shrub for use in low groups.

Class	Min. Height	XX	XXX
B&B	15 in.	\$0.90	\$1.30
B&B	18 in.	1.30	1.90
B&B	2 ft.	1.90	2.60
B&B	2 1/2 ft.	2.60	3.80
B&B	3 ft.	3.80	4.80

BIGLEAF (Japonicum)**Viburnum macrophyllum**

Fast growing variety excellent bright green foliage, upright habit of growth, reasonably compact.

Class	Min. Height	XX	XXX
B&B	4 ft.	\$2.00	\$2.60
B&B	5 ft.	2.50	3.40
B&B	6 ft.	3.40	4.80

Sweet Viburnum

SWEET VIBURNUM**V. odoratissimum**

Compact pyramidal growth branching close to the ground. Leaves are oblong, and a polished dark glossy green. Valuable broadleaf Evergreen for the Landscape.

Class	Min. Height	XX	XXX
B&B	18 in.	\$0.60	\$0.85
B&B	2 ft.	.85	1.15
B&B	2 1/2 ft.	1.15	1.40
B&B	3 ft.	1.40	2.30
B&B	4 ft.	2.30	3.40
B&B	5 ft.	3.40	5.00

SPECIMENS 7 ft. up \$12.00 and up.

WISTERIA**PURPLE****W. sinensis purpurea**

Upright Vine, large clusters of rich purple flowers in Spring. Cutting grown, sure to bloom vines.

Class	Min. Size	XX	XXX
B&B	3 Yr. Clumps	\$2.50	\$3.40
B&B	4 Yr. Clumps	3.50	4.50

YUCCA**CURVELEAF****Yucca recurvifolia**

Wide that gracefully drooping leaves. Flowers borne in large trusses on tall red stems in Spring and Fall Season.

Class	Min. Size	XX	XXX
B&B	2 ft. Sprd.	\$0.90	\$1.20
B&B	3 ft. Sprd.	1.40	2.00

SPANISH DAGGER**Yucca aloifolia**

Leaves are wide tapering to a very sharp point on a single trunk. Flowers are white, purple tinged and very showy. Blooms late in the Summer Season.

Class	Min. Size	XX	XXX
B&B	2 ft. Stems	\$0.90	\$1.20

B&B	4 ft. Stems	1.80	2.25

SPECIMENS 5 ft. BRANCHED \$6.00 up.

STRIPED SPANISH DAGGER**Yucca aloifolia variegata**

Flowers are white. White stripes lengthwise of leaves.

Class	Min. Height	XX	XXX
B&B	2 ft.	\$1.80	\$2.90
B&B	3 ft.	2.40	3.50
B&B	4 ft.	3.80	4.90

GRADING TREES BY QUALITY

GRIFFING AND QUALITY

QUALITY NURSERY STOCK AND THE NAME "GRIFFING" has been associated together for over fifty years. To the Trade, as well as the public, GRIFFING'S TREES are known to mean the Best Quality, produced under the most adaptable conditions. It is with this same emblem of Quality that we aim to serve our old and new patrons.

The Highest Quality does not mean the Highest price—instead it is always the Cheapest. Our Nursery stock is a product you are proud to own—it lives, it satisfies, and give results. It comes from a Firm with a record of long tested values of Quality Production.

WE GROW OUR OWN STOCK

We are not jobbers or brokers. We grow all of the Nursery Stock offered in this catalog at our nurseries, located near Beaumont, Texas, except Roses and a few Fruit Trees, which are grown under contract and our supervision.

The growing of Nursery Stock is a highly specialized business requiring an exact knowledge of plants and horticultural and scientific methods. After 50 years of successful growing, we can without boasting claim to be experts in our line.

Through costly experiments, we have been able to determine the most hardy and suitable varieties for the Southwestern territory, and on these varieties, we have concentrated our main efforts so that our large 200-acre Nursery may yield an abundance of these plants to meet the ever-increasing demand.

XXX
Sylvester Juniper. Which would you prefer?
XX

PRICED ACCORDING TO QUALITY

The descriptions are followed by OUR PRICE for the different sizes, grades, and QUALITIES.

WHAT IS B&B?

Moving a Tree with THE ROOTS in the DIRT in WHICH IT GREW. The Griffing method of B&B has upset all traditional customs about TIME OF PLANTING, size that CAN BE PLANTED, and has eliminated years from planting TIME to the day when the effect is really visible.

ADVANTAGES OF B&B

When Trees and Shrubs are TRANSPANTED B&B they grow; they REQUIRE LESS maintenance; they do not require SEVERE PRUNING TO MAK THEIR Appearance; they are EASIER to PLANT, and a year or more IS GAINED in the GROWTH of a B&B Tree over one PLANTED NB.

Plants like people are individuals, and all ROOT SYSTEMS are not alike; therefore, balling cannot BE MECHANICALLY done for the sake of LOOKS and the best results secured. Our men are TRAINED TO DIG our Trees and Shrubs with Balls to preserve the ROOT SYSTEMS of the Plants FOR SAFE transplanting.

HOW BALLING AND BURLAPPING (B&B) IS DONE—

Look at the photographs, showing the procedure of digging, lifting FROM THE HOLE, and casing with strong BURLAP. The feeding roots are in the BALL. The moisture and SOIL is held INTACT. No shock results from DIGGING. Plants start growth MORE RAPIDLY. The loss among balled plants IS NEGLIGIBLE and with proper care and attention AFTER PLANTING in the way of WATER AND CULTIVATION, there is no necessity of LOSING A PLANT.

HOW WE BALL

We do not SPADE THE BALLS OUT and tie burlap around the LOOSENED SOIL, nor do we DRIVE A CYLINDER around to cut roots TOO SHORT, but the SOIL IS SOLID, never cracked and SIZE OF BALL to conform to the ROOT SYSTEM.

GRADING BY SPREAD

In 1923, the American Association of Nurserymen adopted a Standardized System for Grading Nursery Stock, using the symbol of X's to indicate QUALITY and dividing the various classes of Evergreens into Grade Groups. In our judgment, this is the only way to honestly grade and sell Nursery Stock.

When you visit our Nurseries, we will be glad to show you what is meant by Standardized Grading, and when you order, if you will specify the Quality you want, we will make your selection accordingly. We give the following illustration to show what is meant by Grading by X's—all plants are the same height, but there is a great difference in the general appearance and value.

XXX
Griffing's Waxleaf Ligustrum, illustrating Quality of Plants.
XX
X

XX AND XXX PRICES

Throughout this list, you will find the schedule of prices are according to X's. XXX indicates strictly heavy, low branched, choice Trees or Shrubs.

XX indicates well developed, medium branched, good merchantable Trees or Shrubs.

X indicates poor quality, measured by height. All Nursery rows have some. Not listed in this Catalog.

SPECIMEN STOCK above XX and XXX selected or marked in the Nurseries will be priced according to its value.

YOU GET WHAT YOU BUY

THE GRIFFING SQUARE DEAL—Use Standardized Grading System so those who come to the Nursery and those who do not come, get exact Quality of merchandise as they specify. If you come to the Nursery, you will see the different Quality, but those who don't come, can rely on the Quality being given them as they designate in ordering. (We do not approve of the old fashioned way of letting the Professional Buyers select the choice of the stock early in the Season of current prices and force the ones buying later to pay the same price for the culls.) The System of Quality gives the purchasers a fair opportunity to buy, and a Standard to order by, without personally selecting his material to get a "Square Deal."

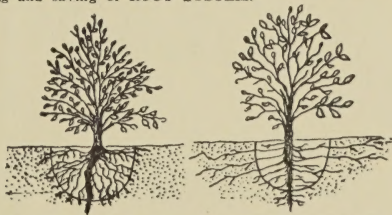

The Thousands of Customers using Griffing Quality products make it profitable for us to carry on. Their patronage is appreciated, and their satisfaction is expressed in such testimonials as:

"100 per cent of our Plantings Lived and Grew."
"100 per cent of our Customers are satisfied when Griffing Trees and Shrubby are used."

"100 per cent Profit is made on our orders where Griffing's Shrubbery is used."

IRRIGATION

This is one of the facilities WE APPRECIATE MOST in the production of quality Nursery Stock. Fresh Neches River WATER can be applied through FOOD IRRIGATION anytime OF THE YEAR. In this way the plants never suffer OF GROWTH, instead a compact ROOT GROWTH is developed. No roots have TO SEEK moisture for a LONG DISTANCE. The illustration shows the VALUE OF THIS in digging B&B Plants for transplanting and saving of ROOT SYSTEM.

HIGHEST QUALITY FOR RESULTS

Since 1886 when we first began to grow and offer selections of Shrubby, Shade Trees and Fruits to the public, we have tried continuously to produce and offer the highest quality selections of quality and varieties we could. Based on this practice of doing business, we have built our business on the foundation of "High Quality and Good Stock," and satisfied customers.

We take pride in serving our customers by furnishing high quality, true to variety, and good hardy field grown stock that we know will give results when transplanted and given a reasonable amount of care and attention. Today it is a real pleasure to point out the Home Grounds and Orchards throughout the Southwest, where our selections of Trees and Shrubby has played such an important part in their development.

A NURSERY WITH A BACKGROUND

Over fifty years have passed since the present Griffing Organizations had their first inception in a small nursery in Northern Florida on land owned by the late D. C. Griffing, and managed by his five sons under the name of "Griffing Brothers."

Always the Griffings grew the stock they sold, offered the best of everything, experimented in every locality to find the most adaptable varieties, dug their Trees with care, packed under rigid inspection, and in all their activities gathered and disseminated information for the benefit of their patrons.

EXPERTS IN OUR LINE

The growing of Nursery Stock is a HIGHLY SPECIALIZED BUSINESS requiring an exact knowledge of Plants and HORTICULTURAL and scientific methods. After over FIFTY YEARS of successful growing we can without boasting, claim to be EXPERTS in our line. Our standards are of the highest.

Our field work is under the SUPERVISION of experienced Foremen, and they give our customers the benefit of their EXPERT KNOWLEDGE of how to GROW, DIG and SHIP our Nursery Stock.

EXPERIENCE COUNTS

Our plants are the finest that can be produced. OUR EXPERIENCE enables us to offer you a VALUABLE and practical SERVICE in SELECTING, Planting, and caring for plants. We can and we are certain, from the EXPERIENCE OF YEARS, that you will find it pleasant and profitable to deal with us.

LANDSCAPING AN INVESTMENT

We have YET TO MEET the owner who ever regretted an INVESTMENT—where he had UNDERTAKEN this improvement under the competent advice and DEALT DIRECT with reliable, established Growers. Even one great towering Shade Tree—what a restful DELIGHT IT IS! Worth hundreds of dollars. Yet not impossible to purchase by simply PLANNING FOR IT.

THE IMPORTANCE OF LANDSCAPE

The aim of Landscape Design is to produce the MAXIMUM OF BEAUTY consistent with utility. To attain THIS RESULT, it is usually best to secure THE SERVICES of a Landscape Architect, whose assistance will not only serve TO AVOID ERRORS but will also save EXPENSE AND TIME.

LANDSCAPE PLANTING

A WELL-LANDSCAPED dwelling gives out a perpetual smile. Winter and summer alike—to its owner's family, and every passing stranger—it radiates quiet, JOY, refinement.

IT NEED NOT BE a large elaborate dwelling: A cottage, even more than a castle, needs A BECOMING SETTING. Neither is much room needed. On the contrary, never is the Landscape Architect's touch more wonderful—or needed—than in making the utmost of A NARROW OR SHALLOW LOT.

YEAR 'ROUND PLANTING OF EVERGREENS

Many Nurserymen will refuse to transplant Trees and Shrubs during the late Spring and Summer months. Due to the fact that we have particular kind of soil especially adapted for Balling Trees and Shrubs and our methods of Root Pruning, we are able to move Trees and Shrubs, at any season of the year without the loss of small branches or even leaves. Our experience has taught us that by the use of our Trees and Shrubs, planting can be done in the Summer as well or even better than during the Fall and Winter.

BUY WITH CONFIDENCE

Our Customers are always welcome to visit our Nurseries and make their selections in person, but they do not have to do this in order to get good selections of Landscape materials. Old customers have found this true and that it saves them time and worry by ordering stock of quality standards and let us make the selections.

With curtailed travel and limited time for personal trips, let us urge more customers to place the responsibility with us to make your selections. Just make up your orders and specify Quality and heights desired. We will do the rest, and satisfy your most choice customers. Try us and be pleased with our selections and our service too!
